

# **CAR STEREO HARD DISK PLAYER**

## **ABSTRACT**

A car stereo hard disk player and particularly a player coupling with a car  
5 stereo to broadcast digital music (such as MP3) includes a case, a hard disk  
drive, a music control unit and a radio emission unit. The invention enables  
users to store a great amount of music through computers or the like to a  
portable hard disk drive for broadcasting in the car to save the trouble and risk  
of changing music CD during driving.
